

August 25, 2025

**Attention: U10 Parents/Guardians**

**Welcome to Calgary NorthWest Ringette Association's 2025/2026 Evaluations**

On behalf of the Calgary NorthWest Ringette Association (NW Ringette), thank you for joining us for the 2025/2026 ringette season. NW Ringette's mission is to develop young athletes in their ringette and life skills through competition, teamwork and fair play, as well as foster their lifelong enjoyment of the sport.

The evaluation process is the most difficult task for any ringette association. There are a considerable number of factors that go into organizing and evaluating our athletes. Each year, the NW Ringette Board of Directors (the Board) reviews the previous season's evaluations process and offers changes and improvements to make the experience better.

We remain committed to our evaluations objective: *To provide an objective, accurate, and transparent evaluation and team formation process.* In keeping with this objective, we have made changes to the evaluations process that affect your athlete. A complete list of Evaluations 2025/26 season changes for all levels can be [found here](#).

**2025/2026 Evaluations Updates**

Changes to the Universal Athlete Assessment (UAA) Skates

- UAA scores from other organizations will be accepted.
- If skaters achieve a UAA score of 8 or below, they will automatically be placed in Step 1.
- Skaters will be placed in the first game play evaluation (scrimmage) based on their UAA scores AND predicted player pathway (see definition in the Evaluations and Team Formation Policy).
- In the event of a fall during the UAA, no additional skate will be allowed, as UAA scores will not be the only indicator for scrimmage placement. Players may be asked to redo the station if the task was done incorrectly.

Changes to Scrimmage Skates

- Beginner skaters in U10 are not required to participate in scrimmages and will be placed in Step 1 pooling.
- In circumstances where a nine (9) year old player is being considered for placement in Step 2 or Step 3, they may be ranked above players aged seven (7) or eight (8) during the team formation process. This prioritization acknowledges both the developmental and social maturity differences associated with the age gap and is intended to ensure older players have the opportunity to gain full-ice experience prior to transitioning to the U12 division the following season.
- Athletes who have previously played Step 3 will not be moved to Step 2 following the evaluations process.
- Skaters whose evaluation scores fall noticeably below the average may be considered for placement in a lower tier during the next round of scrimmages. Top ranked skaters in the top tiered game play evaluation may be removed from further game play evaluations after one (1) game play, if it is clear they will be placed in the highest tier. This change is designed to help evaluators evaluate players closer in skill level.

- The amount of skaters removed from play is at the discretion of the Evaluations Committee, taking into account the number of skaters in the age group, evaluations scores, and where natural breaks in evaluations scores occur.
- Skaters ranked at the bottom in the lowest tier of game play evaluation may be removed from further participation to help evaluators evaluate players closer in skill level. This will only occur if their scores and player pathway clearly support this placement. This decision will be made by the Evaluations Committee.

Here is what else you can expect this year:

- U10 skills evaluations will be as per the Ringette Alberta guidelines for Universal Athlete Assessment (UAA). The UAA includes three stations with four timed drills: 1) Forwards/backwards speed skate, 2) Agility weave with the ring around pylons, and 3) Parallel start and stop drill.
- The first ice time is designed to get the athletes on the ice after being off all summer. This is not the official skills evaluation, but an opportunity to practice each station and know what to expect. The drills will be timed, but only as a trial run for volunteers. This ice time is optional to attend.
- The second ice time will be the official UAA skate. All stations are timed and the player's aggregate score will be used to determine the initial groupings for the scrimmage component of the evaluations. All players get two skates through each station. In the event of a fall, an additional skate will be allowed.
- The third ice time will be the first ringette scrimmage. The scrimmages will be evaluated by experienced coaches who do not have children in U10. Evaluators will be looking at ring control, defensive play, skating skills and game sense. [You can view the Evaluation Rubric here.](#)

#### Notifications

- Athletes will be notified by email of their upcoming ice time. It is critical that you regularly check and thoroughly read each email from the association. The emails contain critical information on the process and what is coming-up next for your athlete. You will also be notified (through email) if your athlete's evaluations are complete.

#### Team Formation

- Once the evaluations process is complete, the teams will be formed. The next email you will receive will be from your head coach. Note: your first practice could happen very quickly after the team has been formed.
- U10 players may submit friend requests for new and existing players. This is no longer limited to players new to ringette at this level. Requests to NOT play with someone will not be routinely granted, but may be considered. Please email your request directly to me.

#### Evaluations Volunteers

- The sign-up for evaluation volunteers will be available in the next few days. You will receive an email from the volunteer coordinator with further instructions. These roles count toward your [NW Ringette volunteer requirement.](#)

The evaluations process can be a stressful time for many players and their families. It is important to prepare your athlete in a way that does not put undue pressure on them. Please encourage them to do their best, but veer away from telling them they will make a certain level. If your player does not make the level you think they should have, remember how you handle the situation will directly impact how your child handles it.

Many volunteers are dedicating countless hours of their time to help make these two weeks go smoothly - we ask that you treat everyone with respect and patience as we work through any issues that may arise. With your help, we can ensure our athletes have an amazing experience this year playing ringette.

Please find attached the evaluation schedule for your division. Your player will not skate at all the ice times listed here. You will be notified of your specific ice times as soon as possible.

Feel free to approach any member of your division coordination team at any time with questions, comments or concerns. Our volunteers are here to help guide you through the process.

Sincerely,

U10 Division Coordinator
